

1 September 2023

Dear Parents/Guardians,

Hearing Screening Test for Secondary 2 Students

The objectives of the Student Health Service are to safeguard both the physical and psychological health of students through health promotion and disease prevention services, enabling them to gain the maximum benefit from the education system and develop their full potential.

In order to identify students with hearing problems and facilitate their application for special arrangement during examinations, we will conduct Hearing Screening Test for S2 students during the annual health assessment. Other health services such as body weight and height measurements, vision screening and individual health counselling remain unchanged.

You are cordially invited to accompany your child to attend the appointment.

Yours faithfully,

(Dr. Thomas CHUNG)
Consultant Community Medicine
Family and Student Health Branch
Department of Health
